

REVIEW - REVIEW

for educational and scientific program specialty 051 "Economics"
training of applicants for the third level of higher education
at Bila Tserkva National Agrarian University

The educational and scientific program of training doctors of philosophy in the specialty 051 "Economics", which is conducted at the Bila Tserkva National Agrarian University, is characterized by relevance and practical expediency.

The scope, content and structure of the educational and scientific program meet the established requirements for educational programs of this level of education and take into account strategic directions of reforming the national economy and focused on trends in the specialty, labor market, interests of higher education.

The program provides the necessary practical training that allows you to master the competencies and social skills needed in further professional activities. Forms and methods of teaching, teaching and control will contribute to the achievement of the stated in the educational and scientific program goals and program learning outcomes, meet the requirements of academic integrity and the principles of academic freedom.

The educational and scientific program provides an opportunity to provide graduate students with systematic knowledge, skills, develop their ability to communicate, responsibility and autonomy.

We believe that in order to provide better feedback with higher education seekers, it would be advisable to include a representative of the postgraduate program of this program in the ESP expert group.

The educational and scientific program of preparation of applicants for higher education for the degree of Doctor of Philosophy in the specialty 051 "Economics" has a clear structure, the introduction of a systematic approach to its construction. The educational components included in it are a logically interconnected system and together allow to achieve the goal and program results, which gives grounds to recommend a peer-reviewed educational and scientific program for use in the educational process.
